Clock diagnostics vs Record #
High latitude radars (fitacf) — 08/Apr/2012

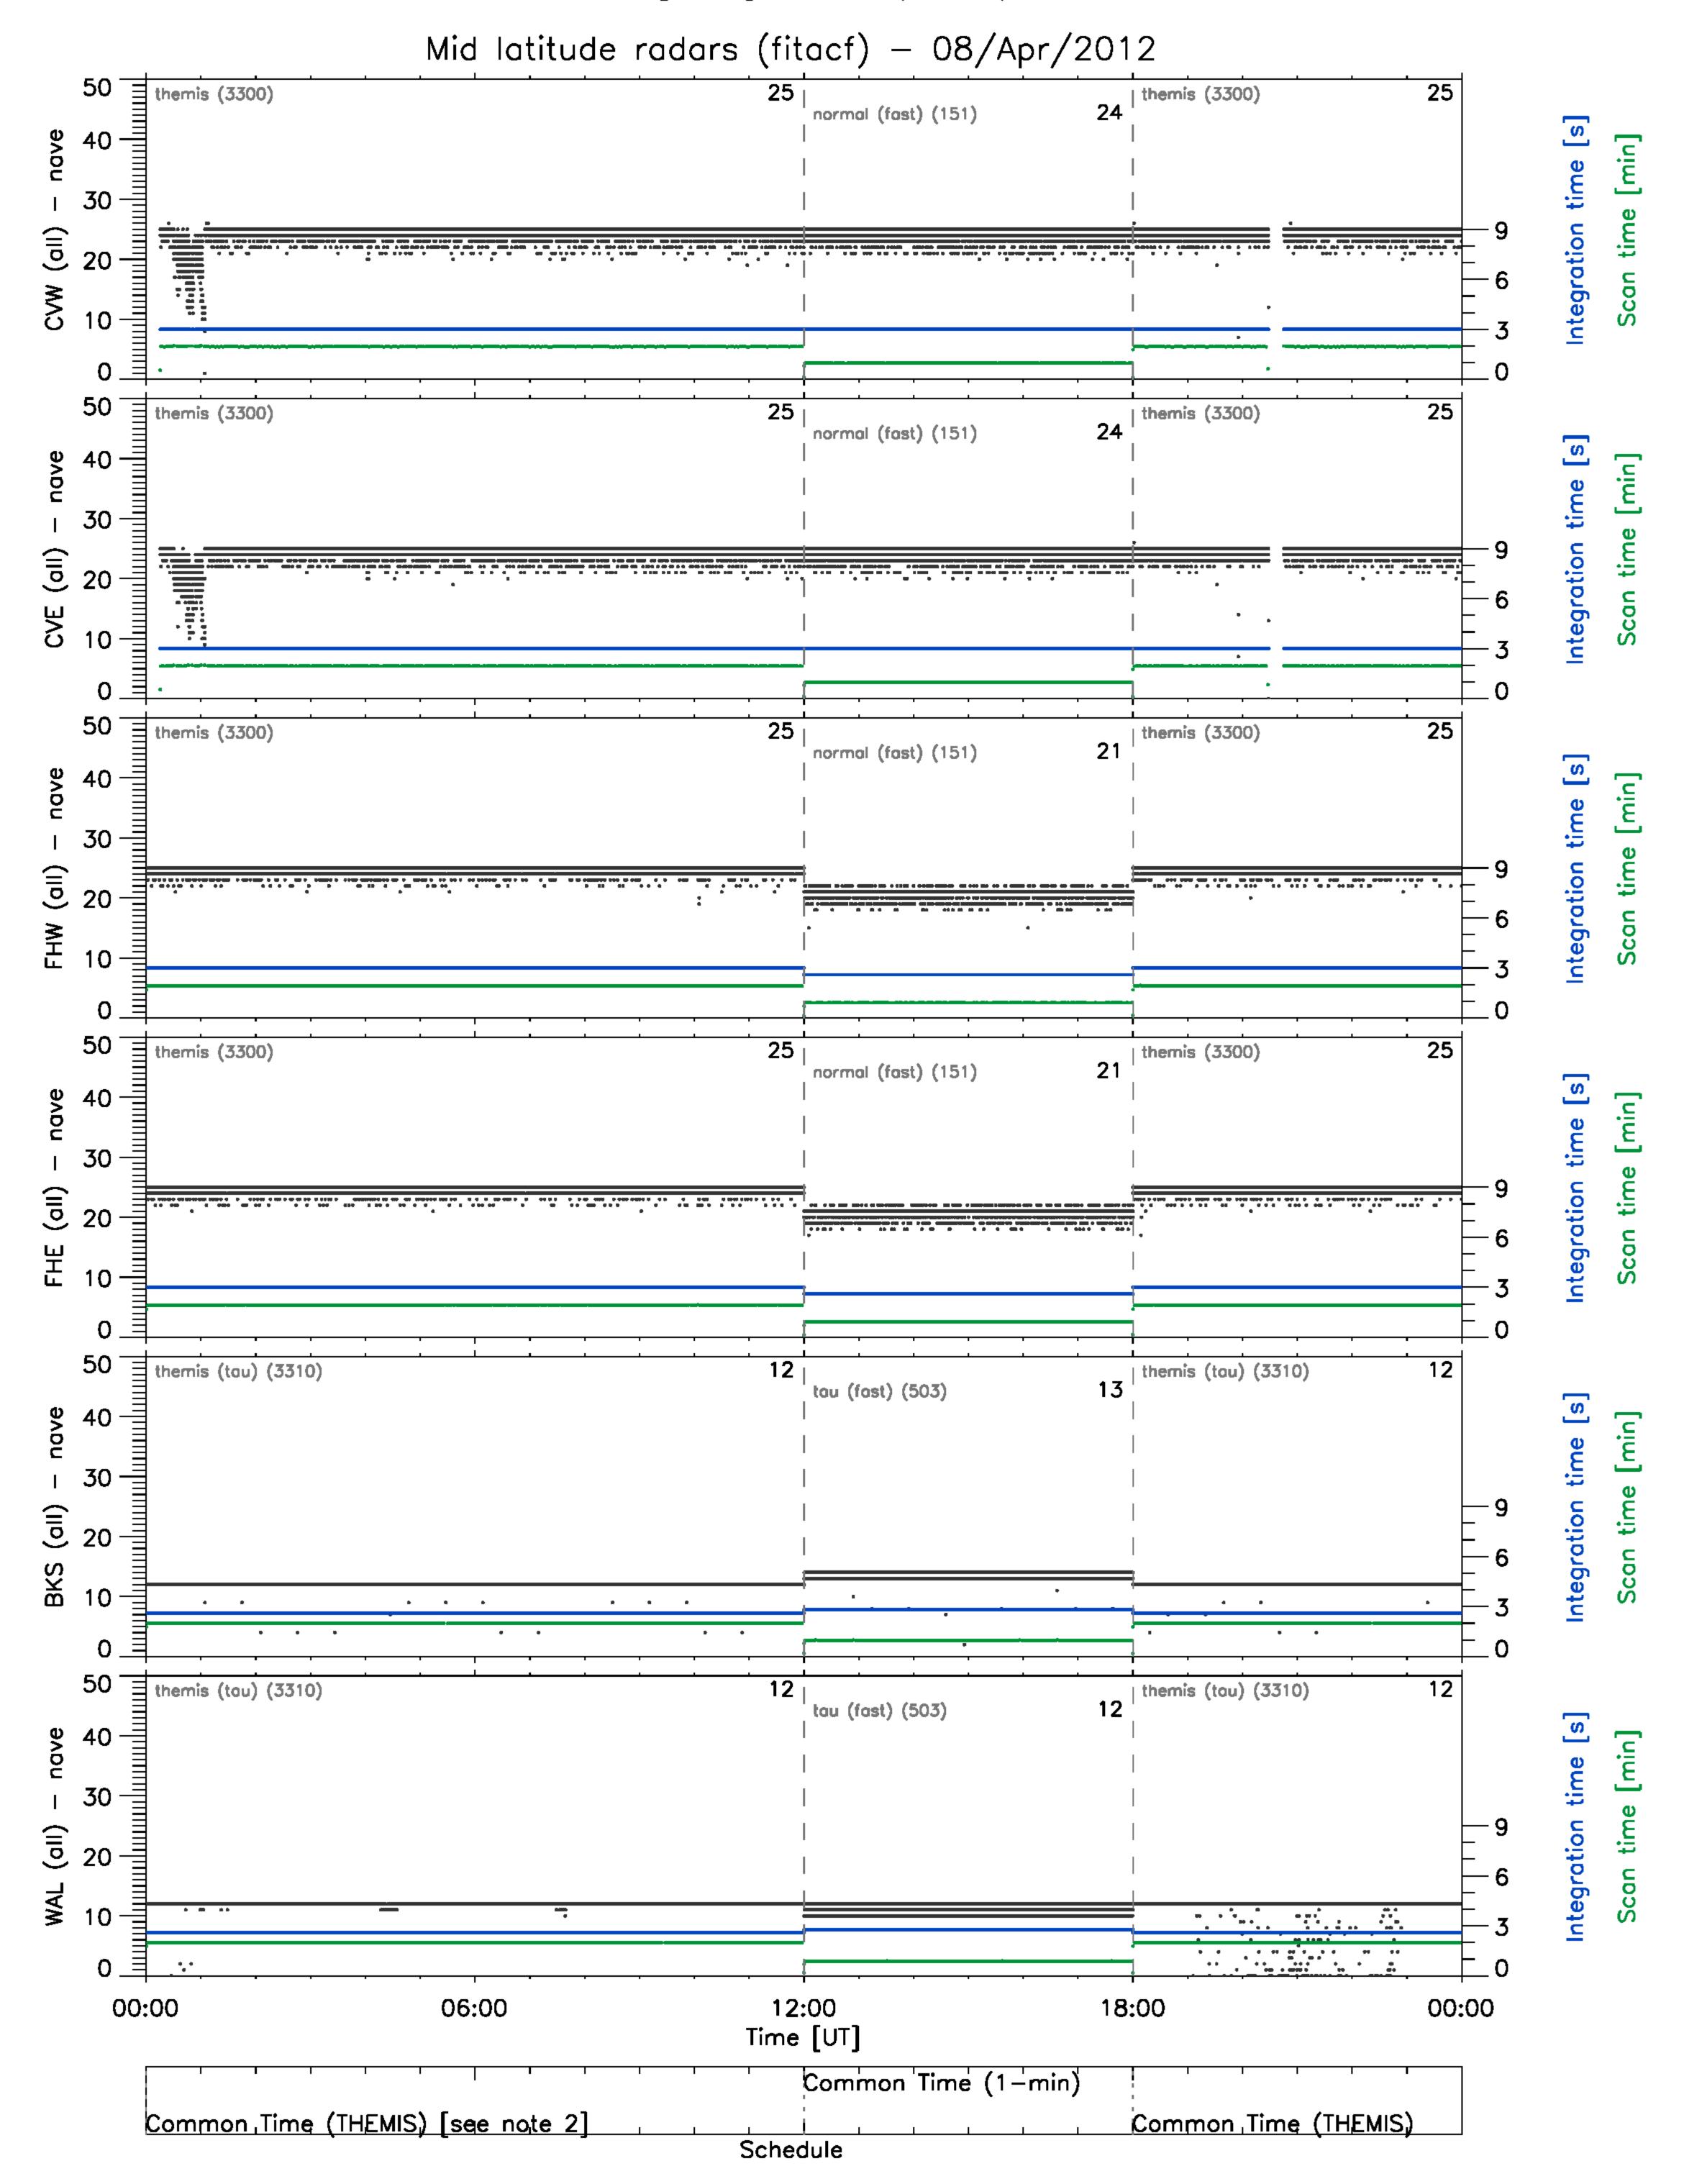

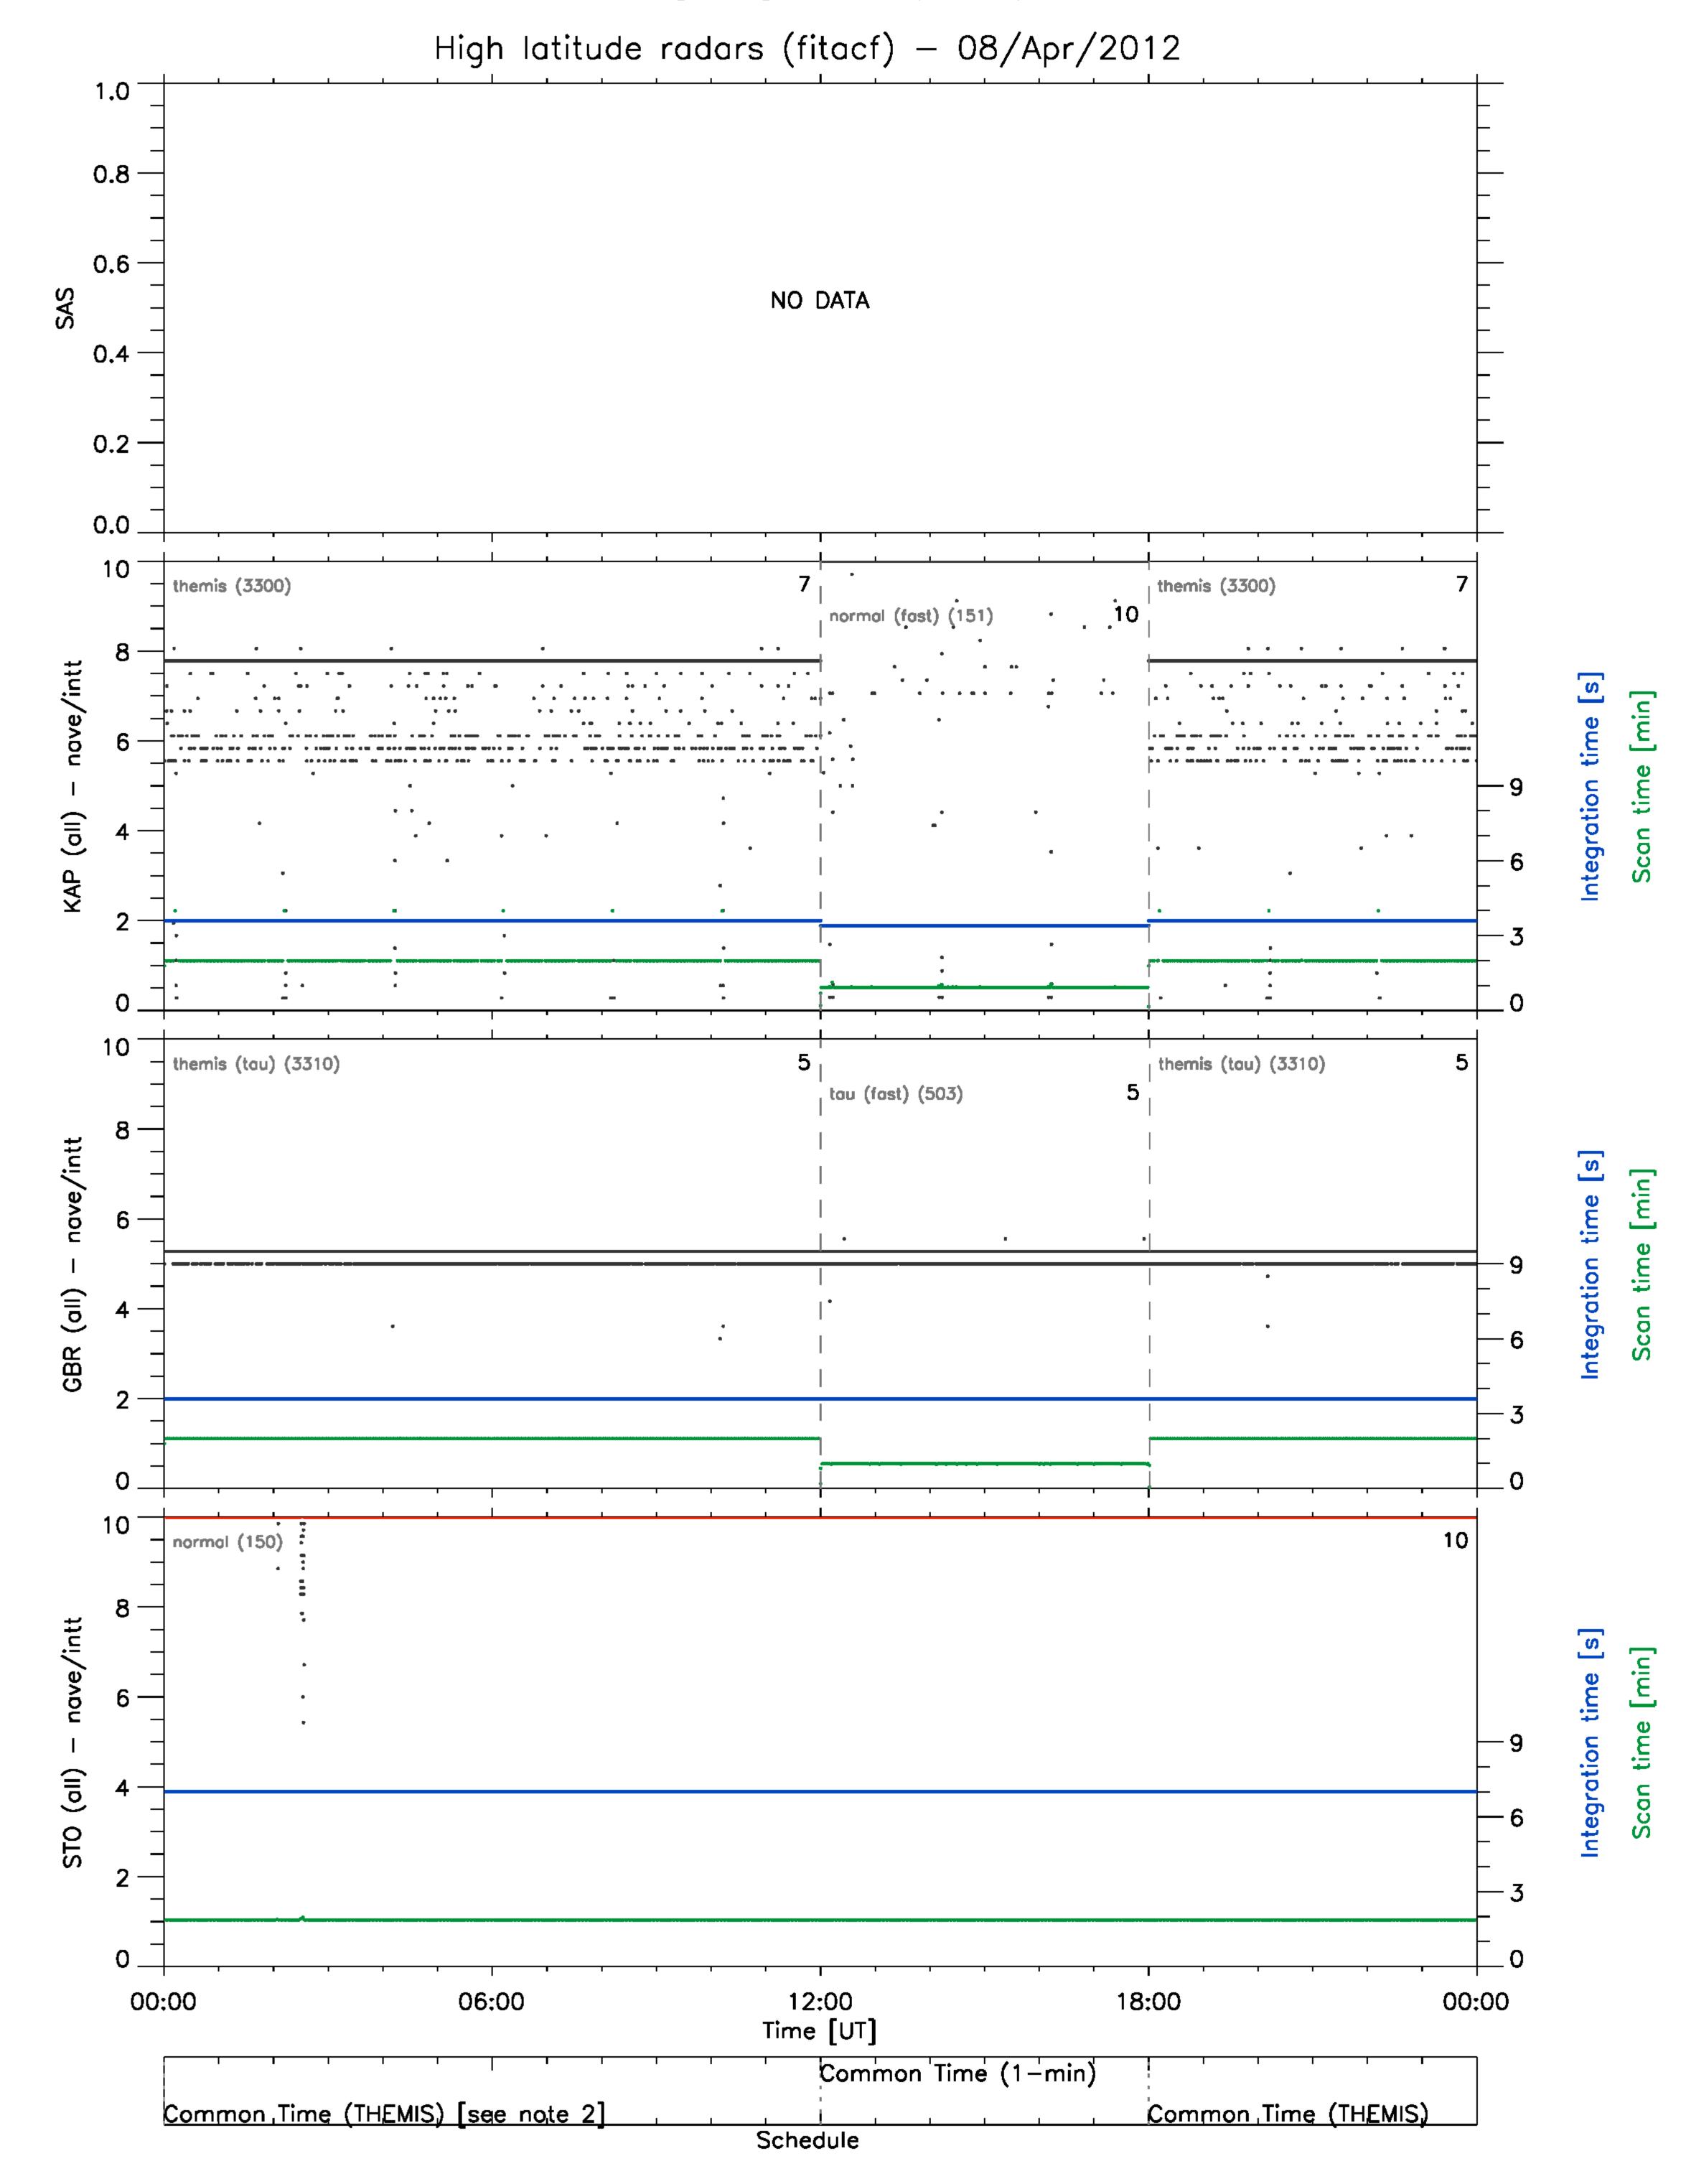

Note on gaps: a gap is marked when two consecutive records are more than 10 integration times apart.

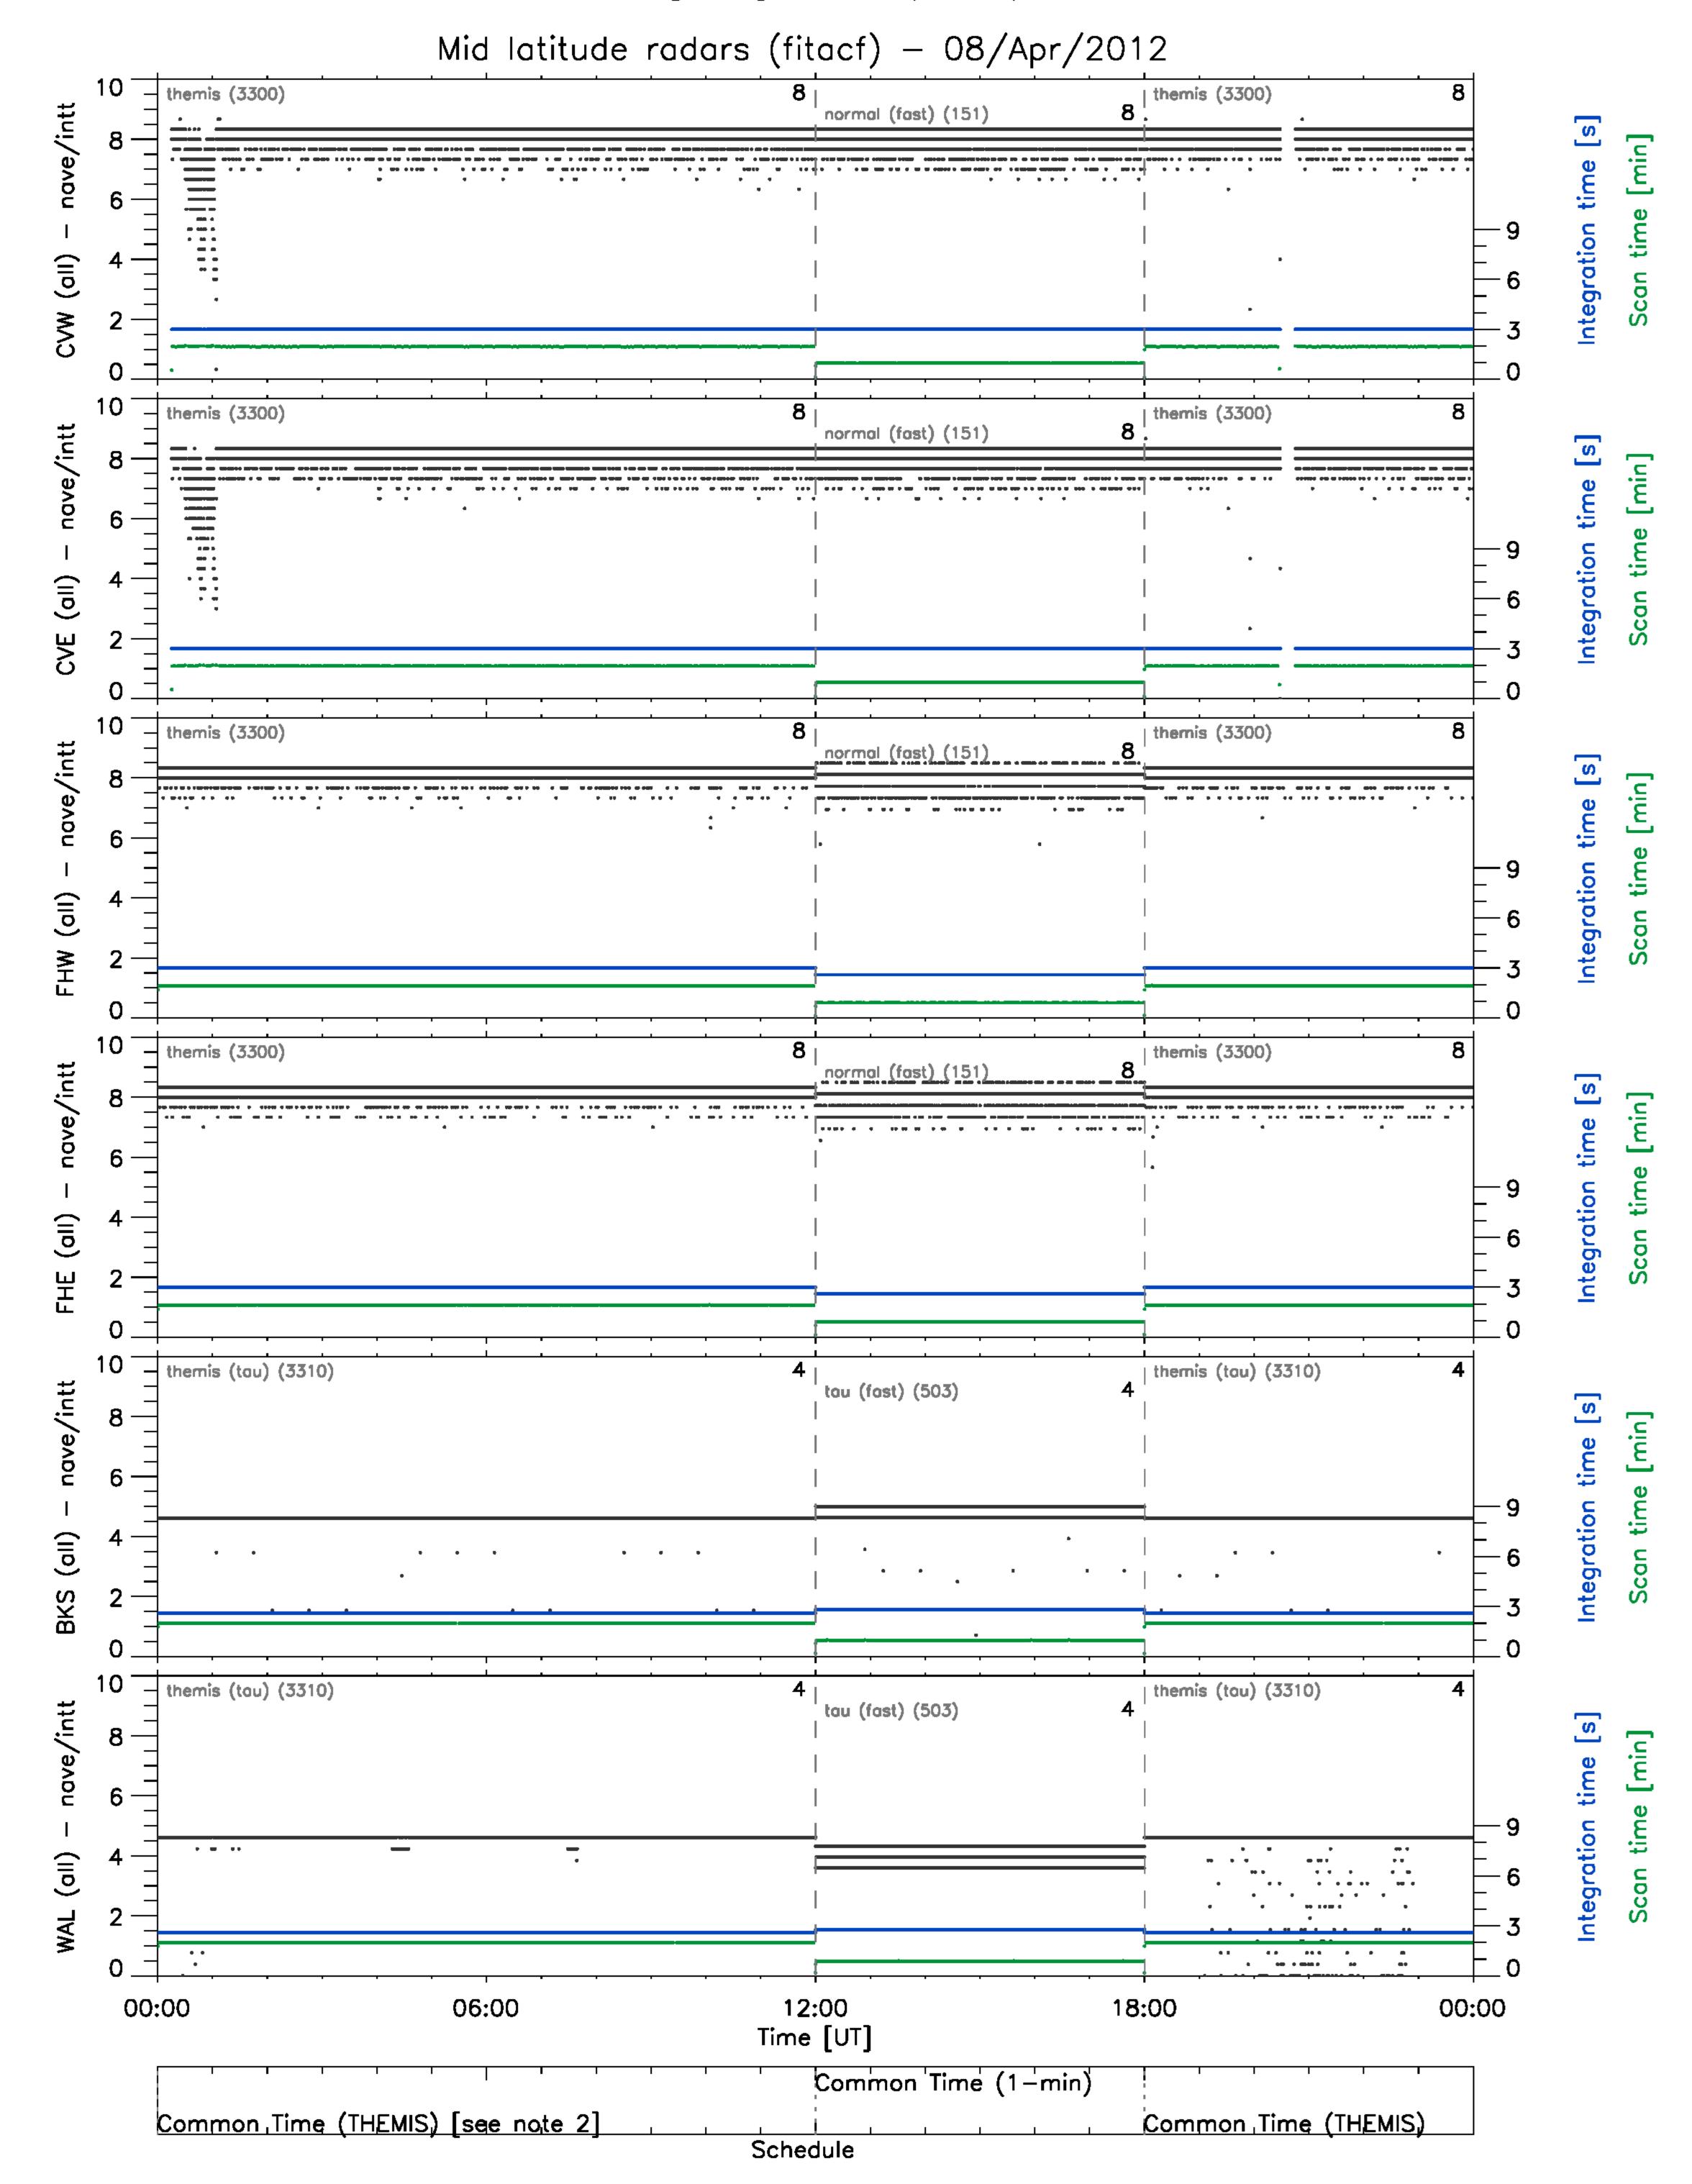

## Clock diagnostics vs Record #

## Frequency/Beam diagnostics (vs UT) High latitude radars (fitacf) — 08/Apr/2012 NO DATA themis (3300) themis (3300) normal (fast) (151) 24 themis (tau) (3310) themis (tau) (3310) tau (fast) (503) - 24 normal (150)

## Frequency/Beam diagnostics (vs UT)

Note on Beam #: a dot is plotted showing the beam # of the k\* record of the k\* scan.
