Clock diagnostics vs Record #

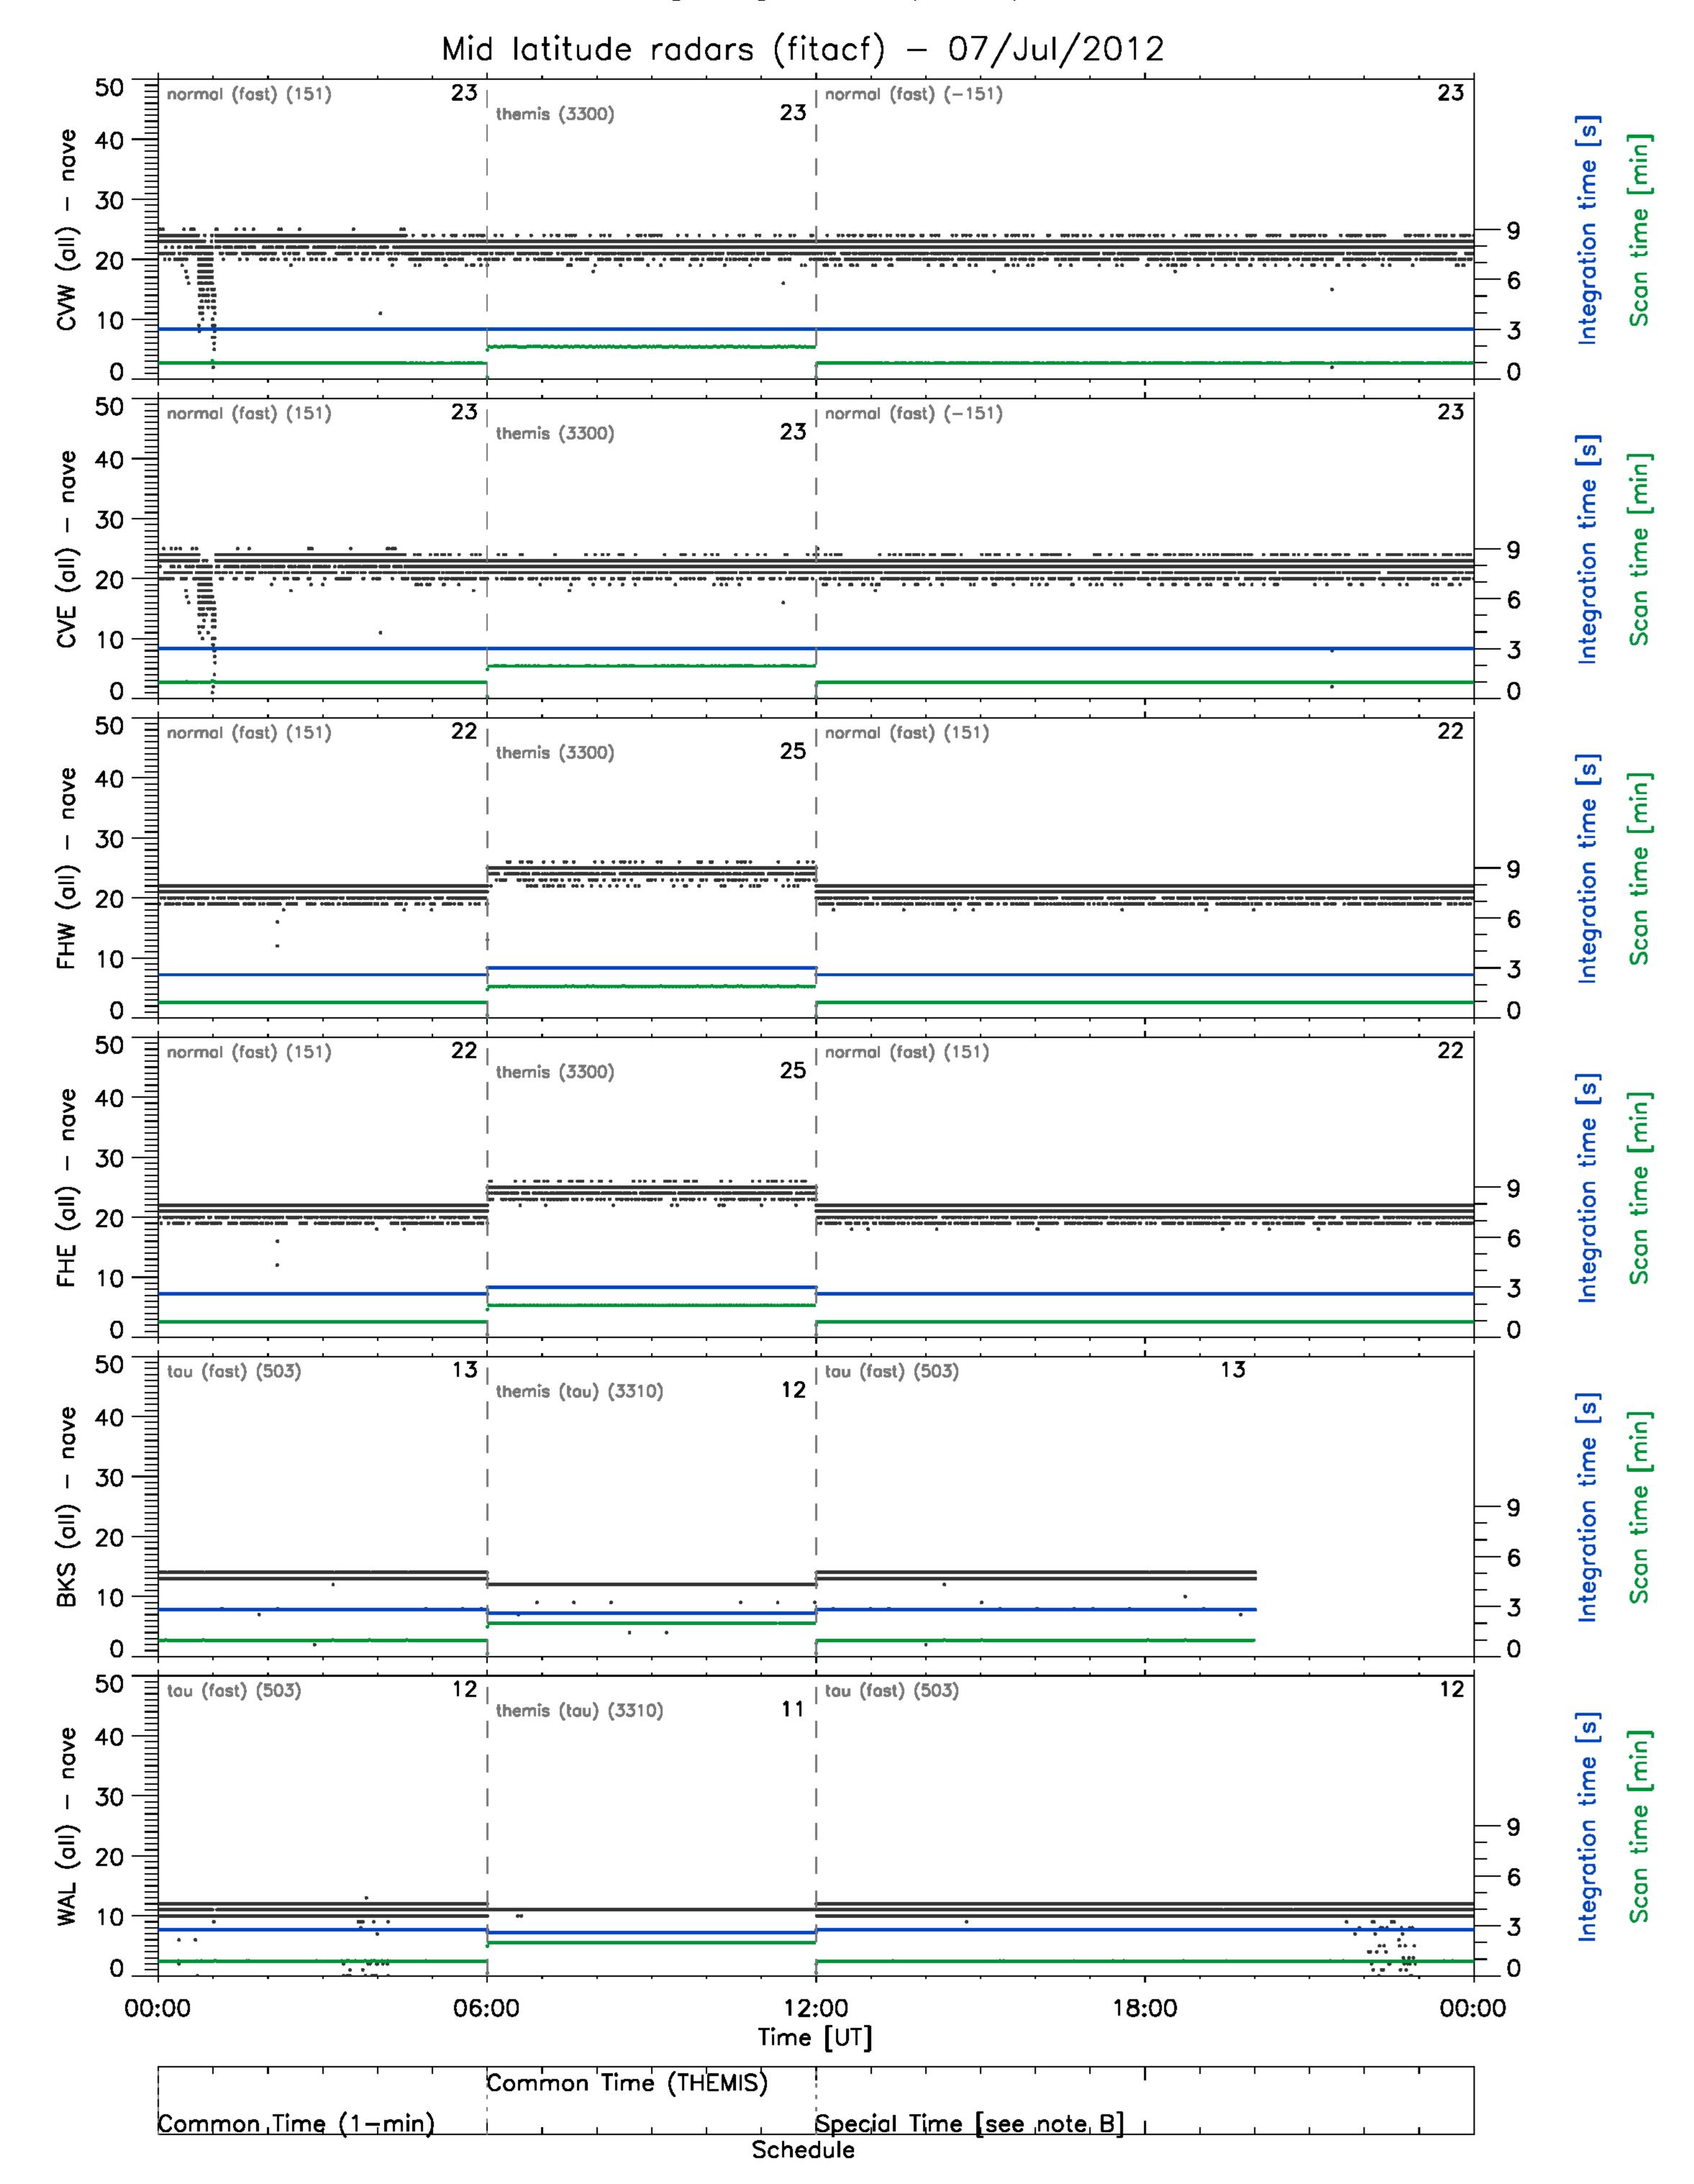

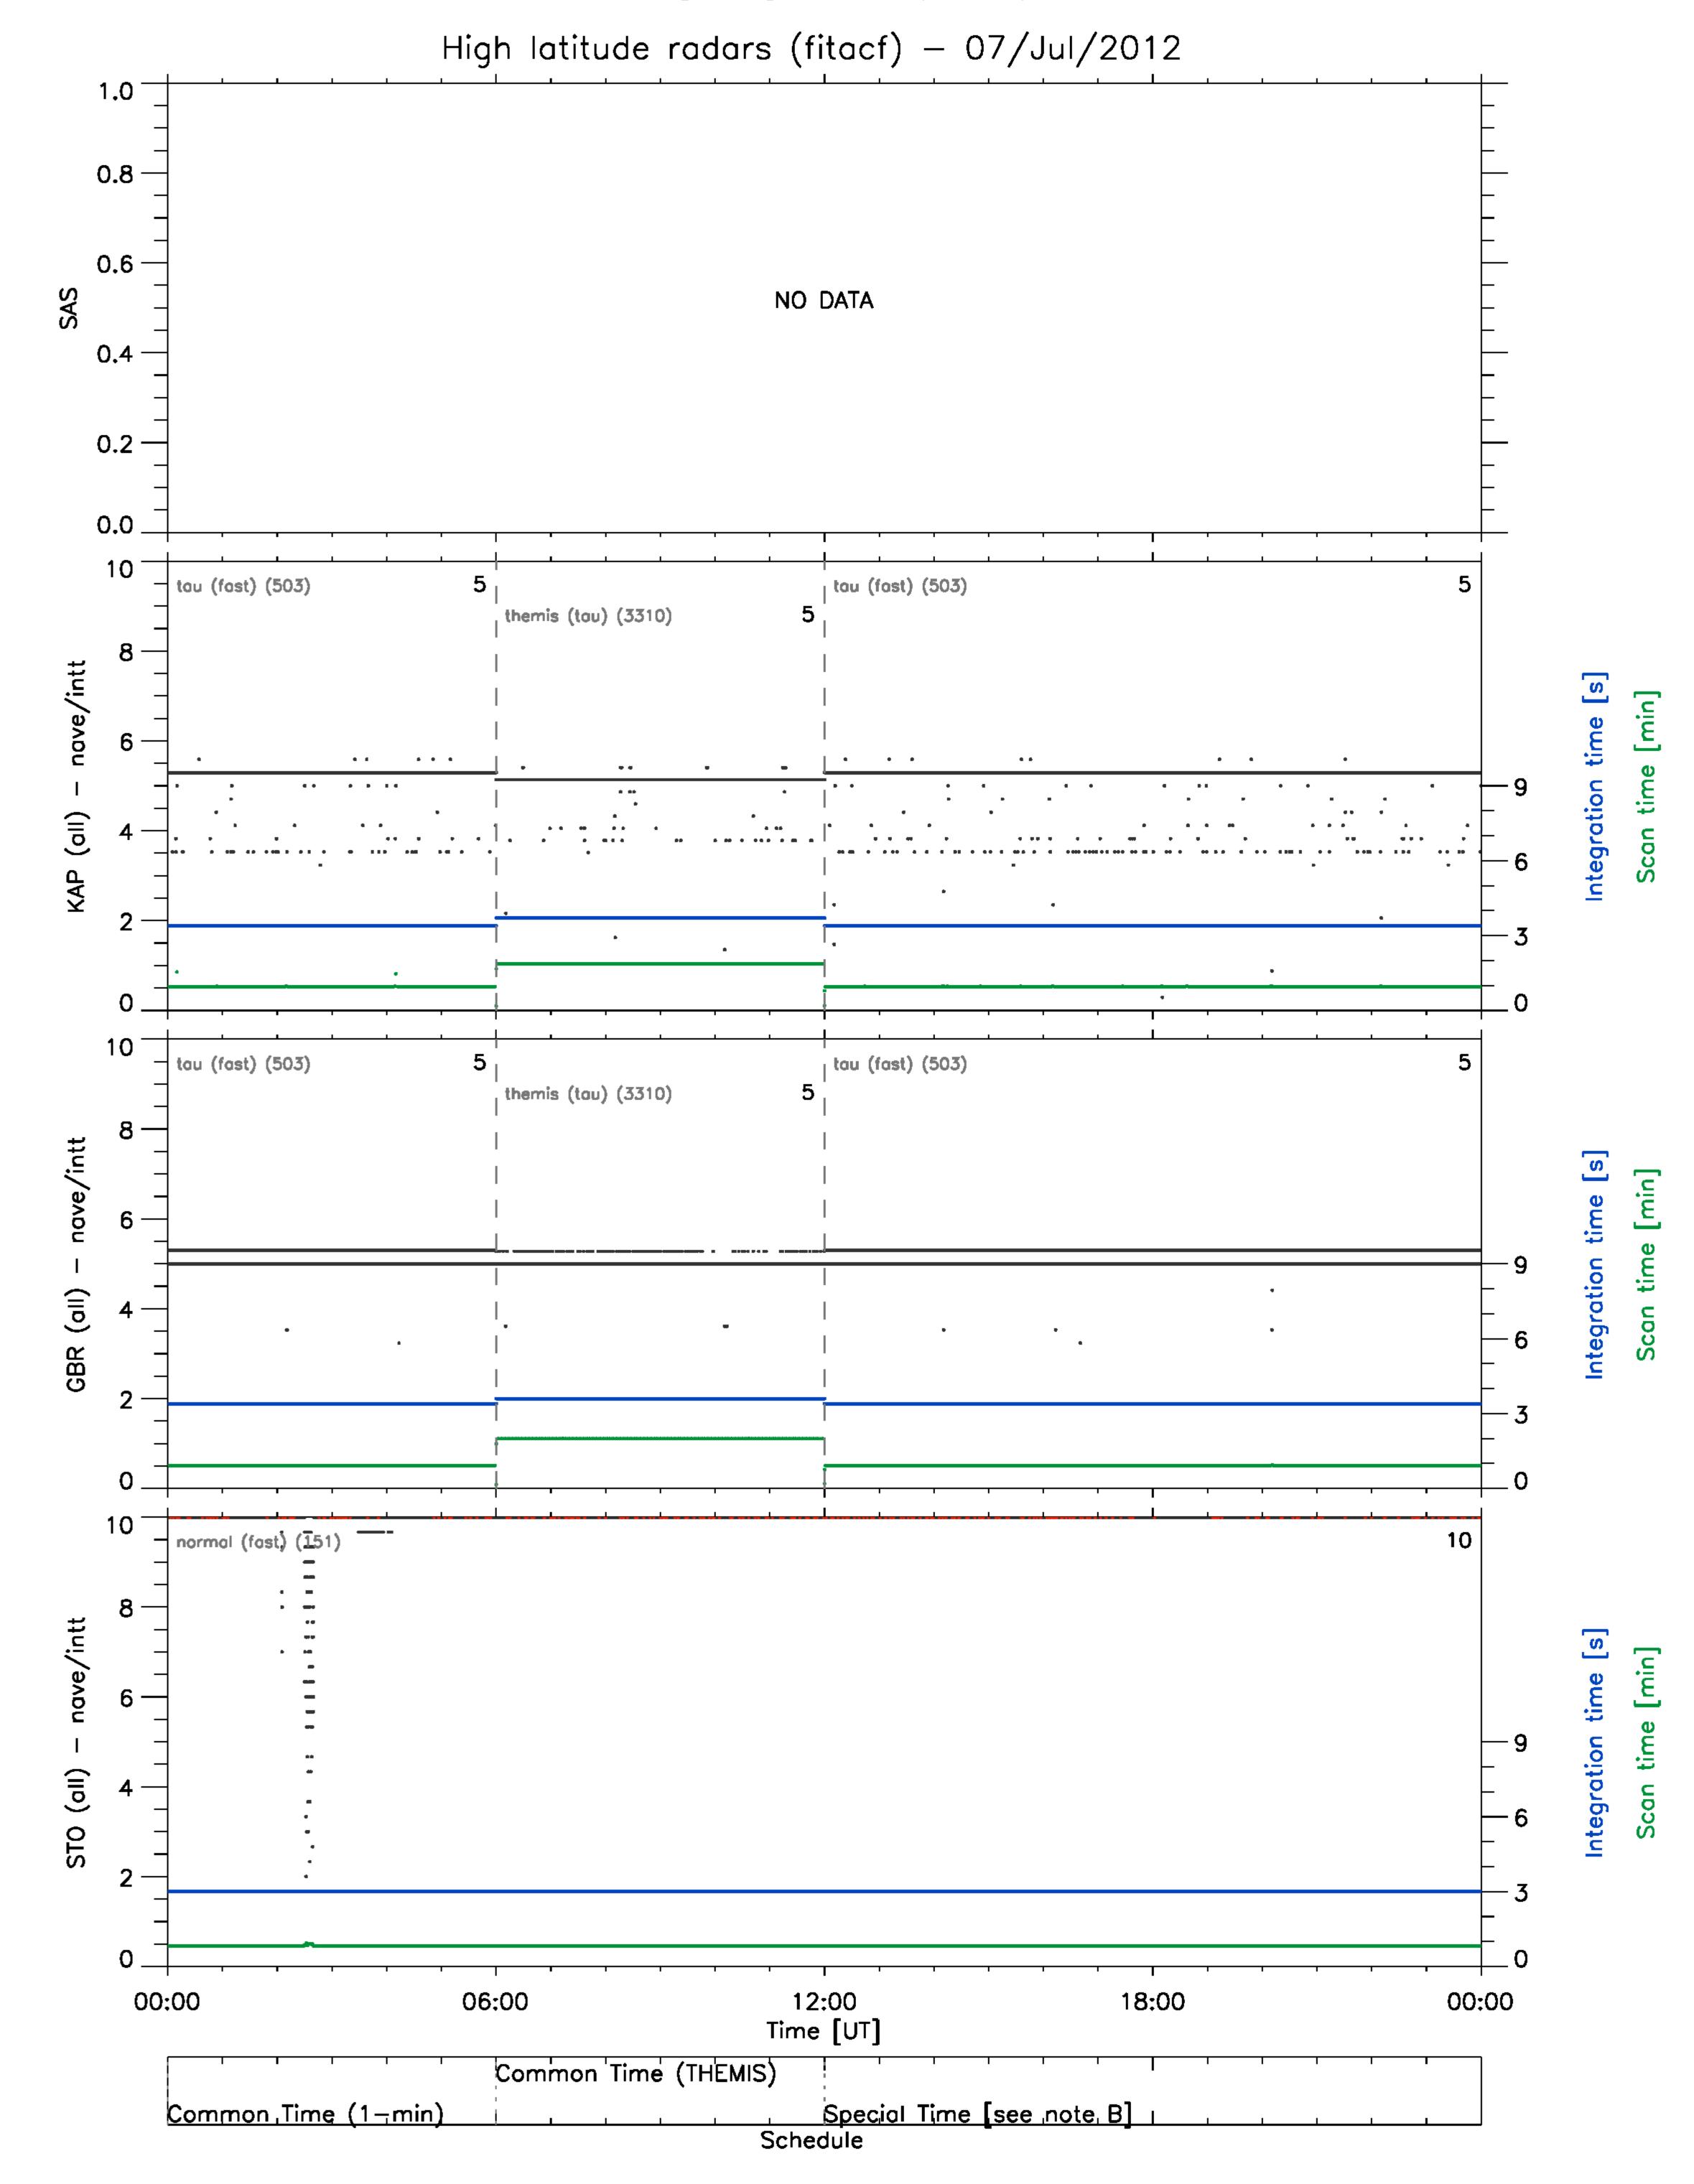

Note on gaps: a gap is marked when two consecutive records are more than 10 integration times apart.

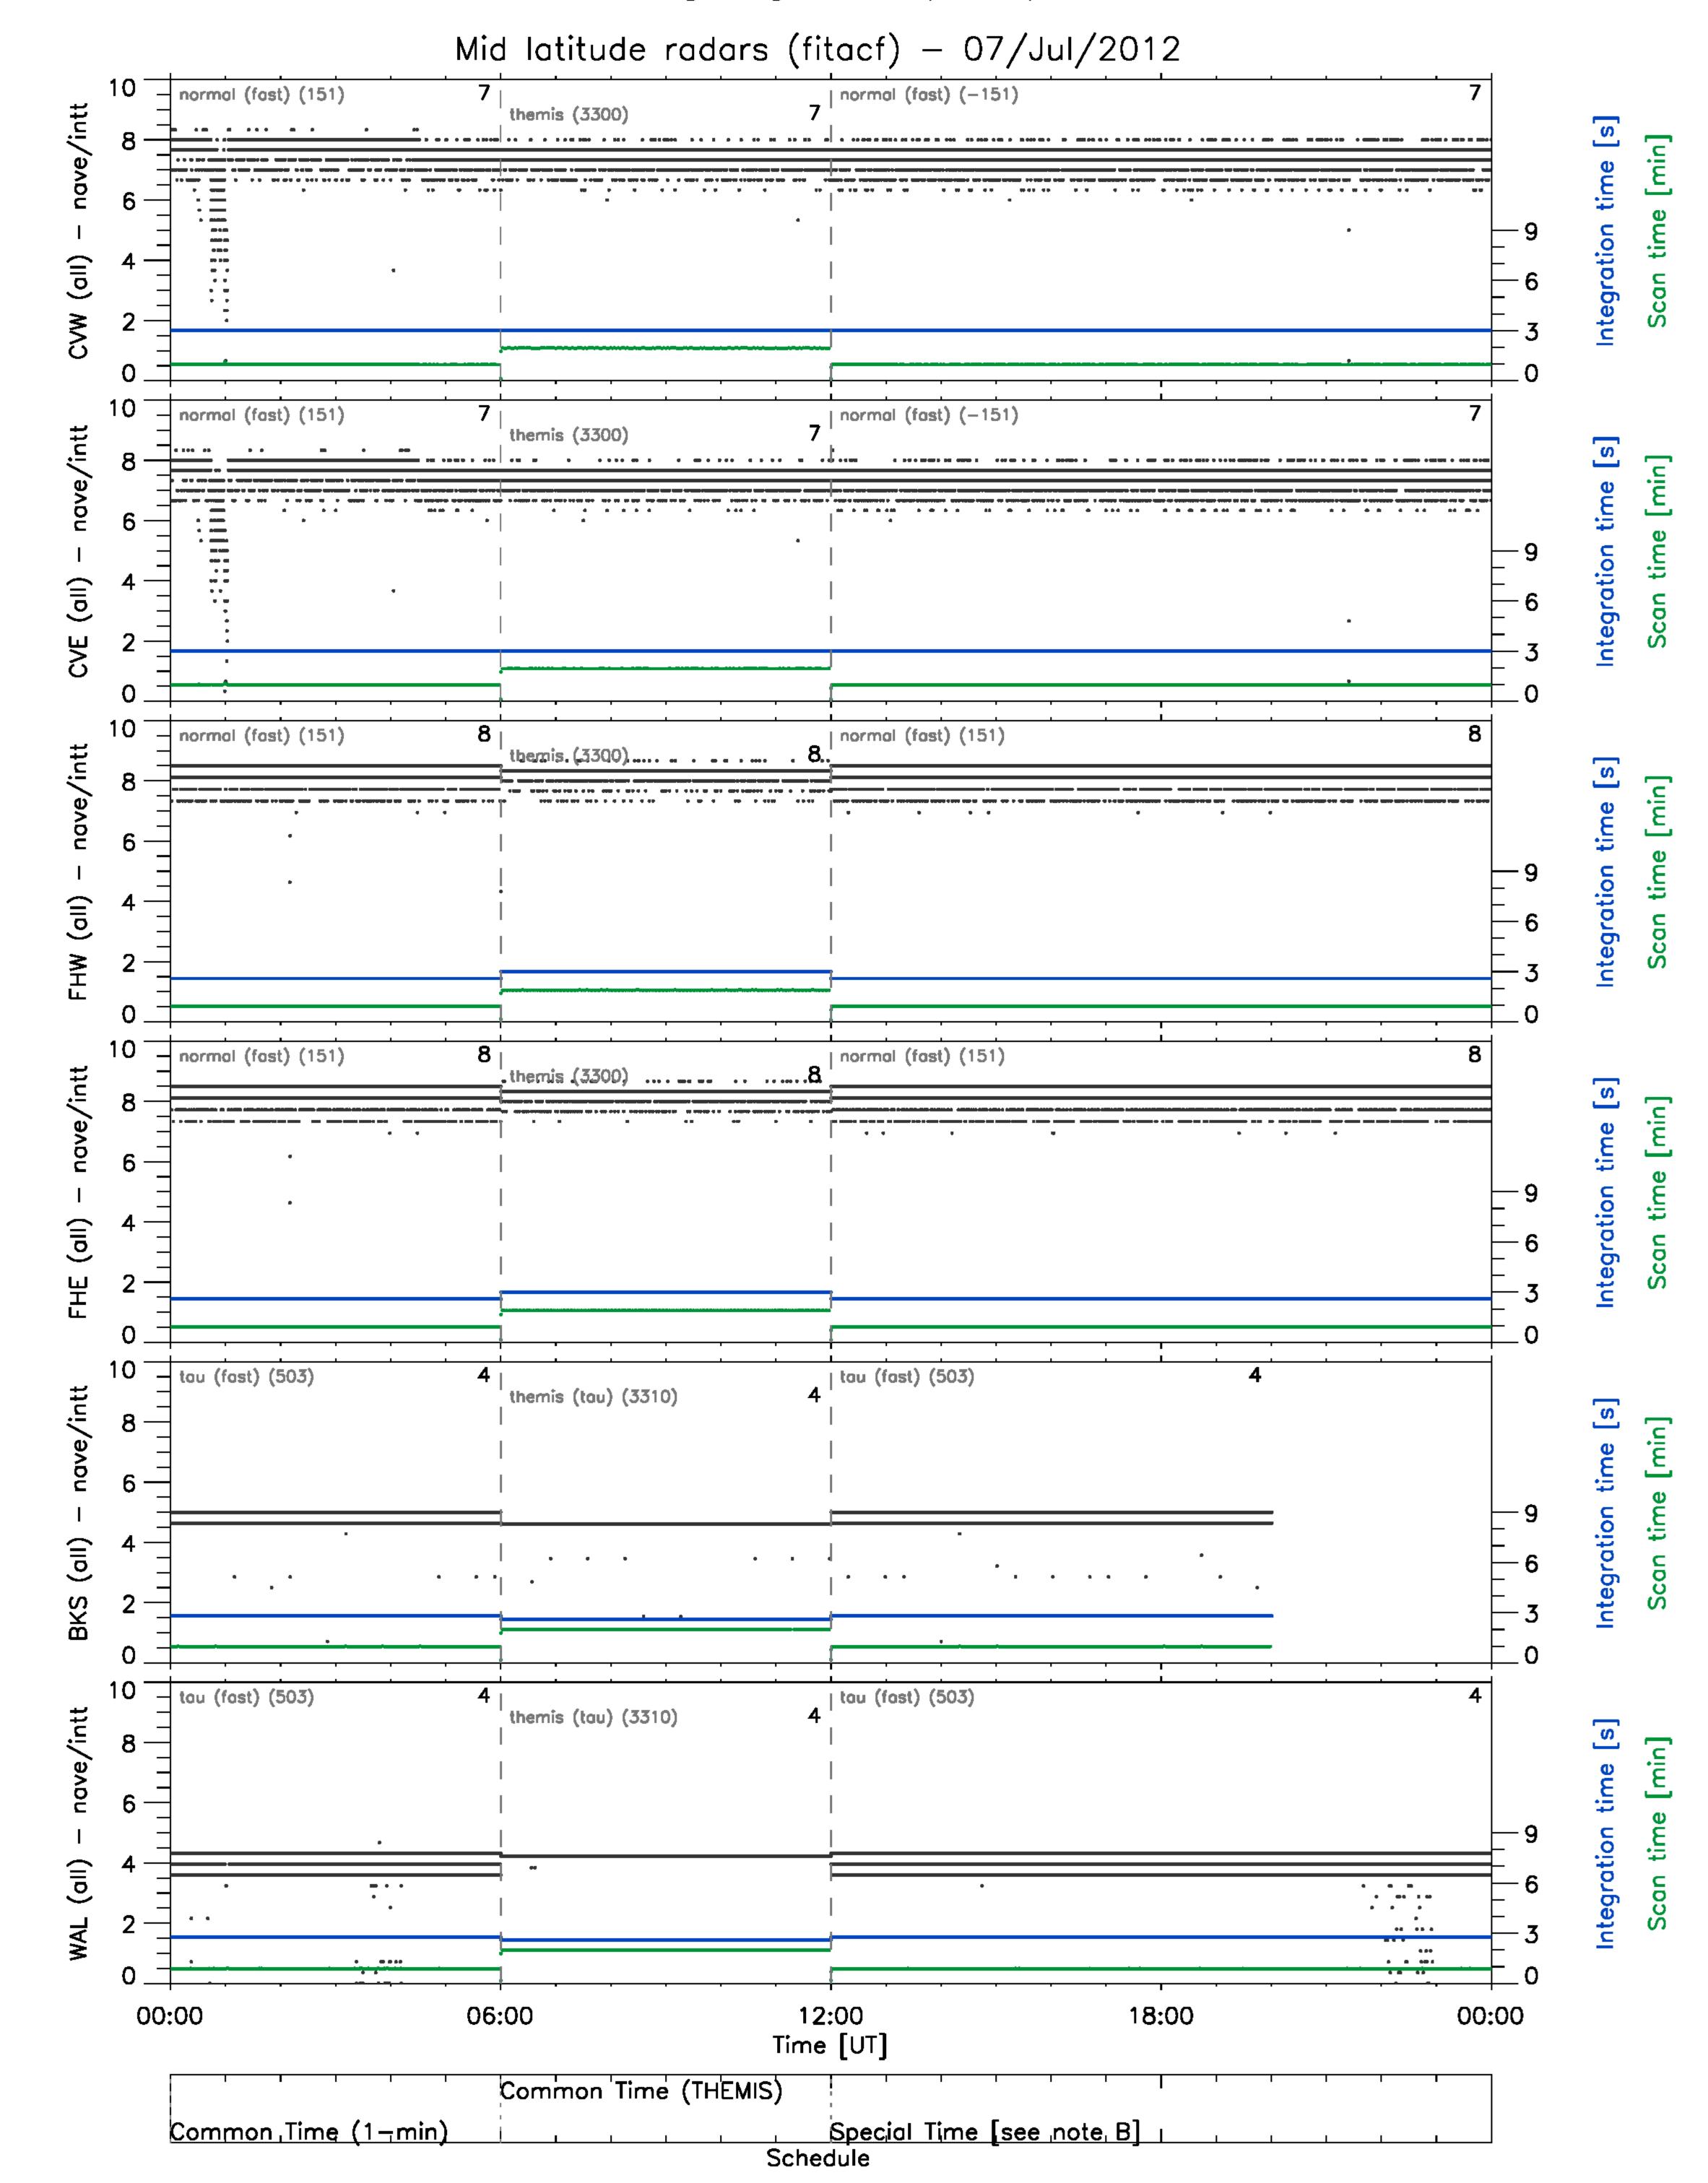

Clock diagnostics vs Record

Frequency/Beam diagnostics (vs UT) High latitude radars (fitacf) — 07/Jul/2012 NO DATA tau (fast) (503) tau (fast) (503) themis (tau) (3310) - 24 tau (fast) (503) | tau (fast) (503) themis (tau) (3310) normal (fast) (151)
